

# FALAT SANG ASIA COMPANY

MANUFACTURER OF  
COUNTERTOPS AND  
KITCHEN CABINETS

**TA** totemQuartz

**GRIFFIN**  
Engineered Stone

ANTIBACTERIAL, STAIN-RESISTANT, SCRATCH-RESISTANT

Falat Sang Asia was established in 2002 in the Morcheh Khort Industrial Town of Isfahan with the aim of manufacturing kitchen cabinet panels. In 2013, by utilizing the technology of the Italian company Berton, the company successfully began mass production and introduced its products to the market.

The use of Italian machinery, equipment, and advanced technology has enabled Falat Sang Asia company's production lines to become one of the leading players in the country's countertop industry. This capability has resulted in exports to countries such as the United Arab Emirates, the United Kingdom, Australia, Italy, and others.

With years of experience in producing countertop and cabinet panels, Falat Sang Asia, in addition to the Totem Quartz brand, has recently launched the Griffin brand with the same technical specifications. The Griffin brand is distributed nationwide through a sales network different from that of Totem and is made available to consumers across the country.

Asia Flat Stone Company distributes various types of engineered quartz stone to installers and workshop operators through its nationwide sales representatives. Workshop operators, in accordance with established guidelines, carry out measurement, cutting, fabrication, assembly, and installation of quartz surfaces. After completing the installation, and upon obtaining a customer satisfaction form and providing instructions for proper use and maintenance, they conclude their services.

Falat Sang Asia Co. considers itself fully committed to its customers and end users. For this reason, the company recommends that customers work only with workshops and installers who have received official certification from Falat Sang Asia and are members of the company's authorized installer network.

(December 2025), the Totem Quartz brand includes 42 models, and the Griffin brand includes 12 codes.

# توتم کوارتز

شرکت فلات سنگ آسیا در سال ۱۳۸۱ در شهرک صنعتی مورچه خورت اصفهان اقدام به تاسیس کارخانه تولید صفحات کابینت آشپزخانه نمود که موفق شد با تکنولوژی شرکت برتون ایتالیا از سال ۱۳۹۲ تولیدات انبوه خود را روانه بازار نماید. وجود ماشین آلات و تجهیزات و تکنولوژی ایتالیایی باعث شده که صفحات تولیدی این شرکت حرف اول را در صنعت کانتر تاپ کشور داشته باشد و این توانمندی منجر به صادرات به کشورهای نظیر امارات متحده عربی، انگلستان استرالیا، ایتالیا و ... گردیده است.

شرکت فلات سنگ آسیا با سالها تجربه در تولید صفحات کانتر تاپ و کابینت علاوه بر برند توتم کوارتز نسبت به ثبت برند گریفین با همان مشخصات فنی اقدام نموده که با شبکه فروش متفاوت از برند توتم در سراسر کشور توزیع میشود و در اختیار مصرف کنندگان قرار می گیرد.

شرکت فلات سنگ آسیا از طریق نمایندگان فروش سراسری در کشور نسبت به توزیع انواع سنگ مهندسی کوارتز به مجریان و کارگاه داران اقدام می نماید. کارگاه داران بر اساس دستورالعمل های موجود پس از اندازه گیری نسبت به برشکاری، مونتاژ و نصب صفحات کوارتز اقدام مینمایند و با اخذ فرم رضایت نامه و ارائه دستورالعمل آموزش و نگهداری از صفحات خدمات خود را به مشتری به پایان می رسانند.

شرکت فلات سنگ آسیا خود را در مقابل مشتریان و مصرف کنندگان نهایی متعهد می داند و به همین خاطر توصیه میکند مشتریان با کارگاه ها و مجریانی کار نمایند که گواهینامه شرکت فلات سنگ آسیا را دریافت نموده اند و جزء باشگاه مجریان این شرکت باشند.

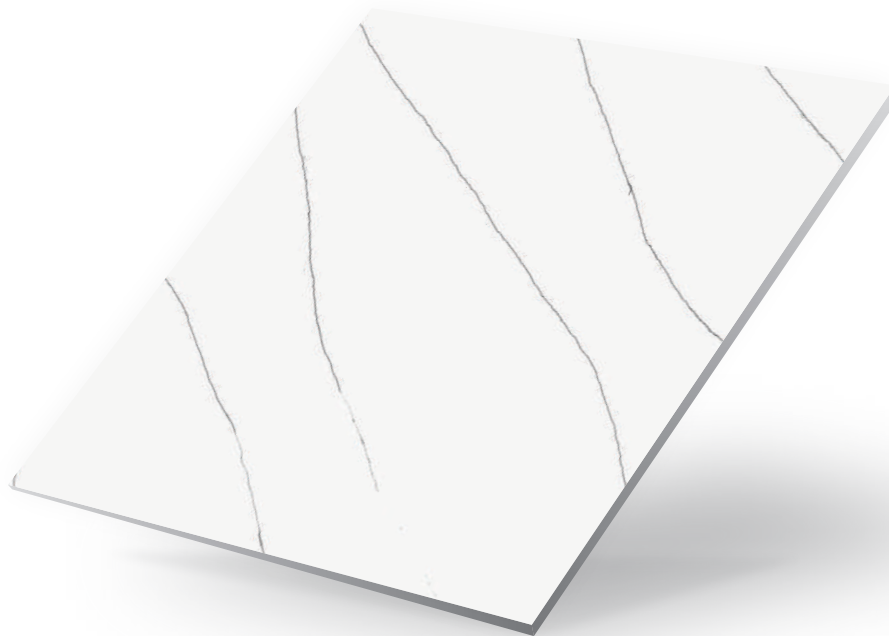

برند توتم کوارتز در آذر ماه ۱۴۰۴ مشتمل بر ۴۲ کد و برند گریفین مشتمل بر ۱۲ کد می باشد.
